Fourth Quarter and Year-End Operating Results - In-Line with Guidance

FFO, a widely accepted measure of REIT performance, for the quarter ended December 31, 2004 was $\$ 8.0$ million, or $\$ 0.25$ per share, compared to $\$ 6.5$ million, or $\$ 0.22$ per share for the fourth quarter 2003. FFO for the year ended December 31, 2004 was $\$ 30.3$ million, or $\$ 0.98$ per share compared to $\$ 0.95$ per share for the same period in 2003. 2004 FFO included a charge during the third quarter of approximately $\$ 0.7$ million, or $\$ 0.02$ per share, related to flood damage incurred at the Mark Plaza located in Wilkes-Barre, PA as previously announced by the Company. 2003 FFO included $\$ 1.2$ million, or $\$ 0.04$ per share of additional rents received during the first quarter related to the assignment of an anchor lease.

Earnings per share on a fully diluted basis was $\$ 0.32$ for fourth quarter 2004 compared to a loss of $\$ 0.02$ for fourth quarter 2003. Fourth quarter 2004 included a gain of $\$ 0.21$ from the disposition of a non-core property. Fourth quarter 2003 included a non-cash write-off of $\$ 0.10$ of unamortized tenant improvement costs related to the buyout and termination of the former anchor at the Town Line Plaza redevelopment project. For the year ended December 31, 2004 and 2003, earnings per share was $\$ 0.65$ and $\$ 0.29$, respectively.

Portfolio Activity - Portfolio Occupancy reaches 92.3\%
On a year-over-year basis, Acadia increased its portfolio occupancy by 470 basis points. Year-end 2004 occupancy was $92.3 \%$ compared to $87.6 \%$ at year-end 2003 and $86.3 \%$ for 2002 . On a same-store basis, year-end 2004 occupancy increased 250 basis points over 2003 occupancy of $89.8 \%$. On a sequential basis, year-end 2004 occupancy increased 320 basis points from that of third quarter 2004.

Same store net operating income ("NOI") for the retail portfolio increased $3.9 \%$ for annual 2004 over 2003. The favorable variance was driven primarily from increased rents in the core portfolio from leasing and redevelopment activities. Fourth quarter 2004 NOI was up 4.1\% over fourth quarter 2003.

During 2004, Acadia executed new and renewal leases totaling 640,000 square feet, or $9 \%$ of the retail portfolio (including joint venture properties except Kroger/Safeway Portfolio), at an average increase of $9 \%$ over the previous base rents on a cash basis.

Opportunistic Non-Core Disposition
During the fourth quarter, Acadia disposed of the East End Centre located in Wilkes-Barre, Pennsylvania for approximately $\$ 12.4$ million
at an effective $5.6 \%$ capitalization rate. In connection with the transaction, the Company extinguished $\$ 23.8$ million of $8.13 \%$ fixed-rate mortgage debt which was scheduled to mature in 2010 and cross-collateralized by the East End Centre and Crescent Plaza.

Balance Sheet - Solid Platform for Growth
Locking in long-term low-rate debt
During the fourth quarter, Acadia further reduced its interest rate exposure by locking in interest rates and extending the maturity for ten years on $\$ 64.0$ million of joint venture debt, of which $\$ 31.4$ million represents the Company's pro-rata share. In addition, the Company reduced its outstanding floating rate debt by $\$ 47.6$ million. As a result, $94 \%$ of the Company's total mortgage debt, inclusive of long-term interest rate swaps and the Company's pro-rata share of joint venture debt is now fixed-rate. This has been accomplished while maintaining a blended cost of debt of $5.9 \%$ as of year-end 2004, as compared to $85 \%$ being fixed-rate as of the beginning of the year at a $6.1 \%$ blended cost of debt.

During the fourth quarter Acadia completed a follow-on offering of 1.9 million shares which provided $\$ 28.3$ million of proceeds. These proceeds were used to further de-leverage the balance sheet by retiring $\$ 11.4$ million of above-market fixed-rate debt. The remaining $\$ 16.9$ million was temporarily used to reduce the Company's borrowings under its lines of credit and will be utilized to fund future investment activity including Fund II acquisitions, anticipated mezzanine/preferred equity investments and other potential investment opportunities.

For 2004, the strength of Acadia's balance sheet was evidenced by positive trends in its financial ratios as well as sufficient working capital to fund all of its foreseeable internal and external capital requirements. All financial ratios include the Company's pro-rata share of unconsolidated joint venture debt and interest expense:
-- Debt to total market capitalization at year-end was 30\% compared with $39 \%$ for 2003 and $49 \%$ for 2002
-- For 2004, 94\% of the Company's total mortgage debt, inclusive of the effect of interest rate swaps, was fixed-rate. This contrasts with $85 \%$ for 2003 and $74 \%$ as of the end of 2002
-- Fixed-charge ratio was 3.2 times (EBITDA / interest expense plus preferred distributions)
-- Dividend payout ratio for 2004 was $66 \%$ of FFO
-- $\$ 33$ million currently available under existing credit facilities to fund anticipated capital requirements

Dividend Increase - 7.8\% Increase for Fourth Quarter 2004 -
Follows 11.5\% Increase in First Quarter 2003 and 8\% Increase in 2002
During the fourth quarter, Acadia's Board of Trustees approved an increase in Acadia's quarterly dividend to $\$ 0.1725$ per share, which represents a $7.8 \%$ increase over the $\$ 0.16$ quarterly dividend paid by Acadia during 2004. This represents a $\$ 0.05$ increase on an annual basis, \$0.64 to \$0.69, and was effective for the dividend paid January 14, 2005. Acadia has now increased its dividend by more than $44 \%$ on a cumulative basis over the past three years. Even after the recent dividend increase, Acadia expects to maintain its historically conservative payout ratio for 2005.

Multiple External Growth Initiatives Launched in 2004 Creating Multi-year Growth Potential - Second NY/Urban Infill Redevelopment Acquired During Fourth Quarter

Fund II - Formation of Second Acquisition Fund
During 2004, Acadia launched its second discretionary acquisition fund, Acadia Strategic Opportunity Fund II, LLC ("Fund II") raising $\$ 300$ million of committed discretionary capital, to acquire approximately $\$ 900$ million of real estate assets on a leveraged basis.

New York Urban/Infill Redevelopment Program Launched
In the third quarter, the Company announced the launching of its New York Urban/Infill Redevelopment Program (through Fund II) with PA Associates with the acquisition of 400 East Fordham Road in The Bronx, NY. During the fourth quarter, Acadia announced its second urban infill project located in Pelham Manor, NY. The Company entered into a 95 -year ground lease for a 16 -acre site which will be redeveloped into a multi-anchor community retail center. Total costs to complete this redevelopment are estimated at $\$ 30$ to $\$ 35$ million.

It is anticipated that both of these projects will earn an
unleveraged yield in excess of $10 \%$ upon stabilization.
RCP Venture Formed - Mervyn's acquisition closed
Acadia also formed the Retailer Controlled Property Venture ("RCP Venture") during 2004 with Klaff Realty, L.P. ("Klaff") and Klaff's long-time partner Lubert-Adler Management, Inc. for the purpose of making investments in surplus or underutilized properties owned or controlled by retailers.

During the third quarter, Acadia completed its first investment through the RCP Venture. \$23.2 million was invested by Funds I and II (of which approximately $\$ 5.0$ million was the Company's share) into an affiliate of Lubert-Adler/Klaff, which is part of the investment consortium, along with Sun Capital Partners, Inc. and Cerberus Capital Management, L.P., that acquired the 257 store Mervyn's department

Outlook - Earnings Guidance for 2005
On a fully diluted basis, the Company currently forecasts its 2005 FFO will range from $\$ 1.01$ to $\$ 1.09$ per share. 2005 earnings per share is expected to range from $\$ 0.46$ to $\$ 0.54$. While other factors may impact earnings, Acadia's 2005 earnings guidance is based on the following assumptions:

## - Same Property Occupancy and NOI

The Company's same property portfolio (including joint venture properties on a pro-rata basis) is expected to experience stable growth of approximately $3 \%$ to $4 \%$ for 2005 with expected portfolio occupancy increasing approximately $1 \%$ over 2004. This may be offset by the impact of potential tenant credit issues for which the Company is forecasting reserves ranging from \$0.01 to \$0.03.

## - Acquisitions

The Company expects to generate $\$ 0.02$ to $\$ 0.06$ of FFO from external growth initiatives. The low end of this guidance should be achieved solely from completed transactions and identified investments expected to close during the first quarter of 2005.

## - Fee Income and General and Administrative Expense

Fee income is projected to increase primarily as a result of a full year of asset management fees from Fund II together with other fees. The increase in fees is expected to be offset by a related increase in general and administrative expenses, as well as additional Sarbanes - Oxley related costs. These activities are expected to provide $\$ 0.00$ to $\$ 0.02$ of FFO growth.

The following is a reconciliation of the calculation of FFO per diluted share and earnings per diluted share:

| Guidance Range for 2005 | Low | High |
| :---: | :---: | :---: |
| Earnings per diluted share | \$0.46 | \$0.54 |
| Depreciation of real estate and amortization of leasing costs: |  |  |
| Wholly owned and consolidated partnerships | 0.47 | 0.47 |
| Unconsolidated partnerships | 0.08 | 0.08 |
| Funds from operations | \$1.01 | \$1.09 |

## Management Comments

Commenting on the results for the quarter and year, Kenneth Bernstein, President and CEO, stated, "We are quite pleased with our fourth quarter and full year performance. In 2004, our team was successful in driving the three key components of our business plan. First, we continued to enhance the value of our core portfolio, driving our occupancy to a five-year high while also improving the quality of our cash flows through redevelopment and selective disposition. Second, we further enhanced the strength and flexibility of our balance sheet. At year end our debt to total market cap was $30 \%$ and our fixed-charge coverage ratio was 3.2 times. Our dividend payout ratio for the year was healthy at $66 \%$ even after raising our dividend a cumulative $44 \%$ over three years. Third, we continued to expand our highly opportunistic but disciplined acquisition program with the formation of Fund II and the launching of the RCP Venture and the New York Urban/Infill Redevelopment Program. These initiatives should provide a highly accretive pipeline, which should help drive our growth over the next several years. Looking ahead, the fundamentals of our business plan remain sound and compelling. The potential for internal growth through redevelopments coupled with a strong balance sheet and an exciting external growth platform should enable us to continue to create strong shareholder value going forward."

Acadia Realty Trust, headquartered in White Plains, NY, is a fully integrated and self-managed real estate investment trust which specializes in the acquisition, redevelopment and operation of shopping centers which are anchored by grocery and value-oriented retail. Acadia currently owns (or has interests in) and operates 69 properties totaling approximately 9.6 million square feet, located primarily in the Northeast, Mid-Atlantic and Midwest United States.

Certain matters in this press release may constitute
law and as such may involve known and unknown risk, uncertainties and other factors which may cause the actual results, performances or achievements of Acadia to be materially different from any future results, performances or achievements expressed or implied by such forward-looking statements. Such forward-looking statements speak only as of the date of this document. Acadia expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Acadia's expectations with regard thereto or change in events, conditions or circumstances on which any such statement is based. The Company also refers you to the documents filed by the Company, from time to time, with the Securities and Exchange Commission, including without limitation the Company's Annual Report on Form 10-K and the "Management's Discussion and Analysis of Financial Condition and Results of Operations" incorporated by reference therein, for a discussion of such risks and uncertainties.

EBITDA is a widely used financial measure in many industries, including the REIT industry, and is presented to assist investors and analysts in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses)(including impairment charges) on the sale of income producing properties. The Company's method of calculating EBITDA may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Refer to the Company's Financial and Operating Reporting Supplement for the quarter as posted on its website and included in the Company's filing on Form 8K with the Securities and Exchange Commission for a reconciliation of EBITDA.

See the notes to the attached financial tables for a further discussion of the Company's use of FFO.

Notes:
(1) Reflects the potential dilution that could occur if securities or other contracts to issue Common Shares were exercised or converted into Common Shares.
(2) The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property and depreciation and amortization. However, the Company's method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.
(3) In addition to the weighted average Common Shares outstanding, diluted FFO also assumes full conversion of a weighted average 392 and 1,140 OP Units into Common Shares for the quarters ended December 31, 2004 and 2003, respectively and 598 and 1,868 OP Units into Common Shares for the years ended December 31, 2004 and 2003, respectively. Diluted FFO also includes the assumed conversion of Preferred OP Units into 523 and 295 Common Shares for the quarters ended December 31, 2004 and 2003, respectively and 500 and 295 Common Shares for the years ended December 31, 2004 and 2003, respectively.
(4) Fixed-rate debt includes $\$ 86,156$ of notional principal fixed through swap transactions. Conversely, variable-rate debt excludes this amount.

The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its
widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of property and depreciation and amortization. However, the Company's method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

## USE OF EBITDA AS NON-GAAP FINANCIAL MEASURE

EBITDA is a widely used financial measure in many industries, including the REIT industry, and is presented to assist investors and analysts in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses including impairment charges) on the sale of income producing properties. The Company's method of calculating EBITDA may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs,
including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.

(1) Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's equity in the earnings of unconsolidated partnerships is reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items. In total, this agrees with the equity in earnings of unconsolidated partnerships as reported in the Company's Form 10Q's and 10K for the corresponding periods.
(2) The Company currently invests in Funds I \& II as detailed elsewhere in this Supplement. The Company also has a $49 \%$ JV interest in a 311,000 square foot shopping center ("Crossroads")

(1) Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's equity in the earnings of unconsolidated partnerships is reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items. In total, this agrees with the equity in earnings of unconsolidated partnerships as reported in the Company's Form 10Q's and 10 K for the corresponding periods. The Company currently invests in Funds I \& II as detailed elsewhere in this Supplement.The Company also has a 49\% JV interest in a 311,000 square foot shopping center ("Crossroads").
(2) Fund I currently invests in 3 properties in which it has $50 \%$ interest in and for which it uses the equity method of accounting.
(3) Funds I and II pay asset management and property management fees to Acadia Realty L.P. As such, the Company does not recognize a pro-rata share of these expenses in its consolidated financial statements.
(4) The Company had two interest rate swaps, effectively fixing the interest rate on its pro-rata portion of the mortgage debt from its investment in Crossroads. Acadia's pro-rata share of its interest expense has been adjusted for the effect of these swaps. These swaps were terminated during the fourth quarter of 2004. In addition to its pro-rata share of depreciation, the Company recognizes depreciation on its increased basis in Crossroads.

(1) Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's equity in the earnings of unconsolidated partnerships is reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items. In total, this agrees with the equity in earnings of unconsolidated partnerships as reported in the Company's Form 10Q's and 10K for the corresponding periods.
(2) The Company currently invests in Funds I \& II as detailed elsewhere in this Supplement. The company also has a $49 \%$ JV interest in a 311,000 square foot shopping center ("Crossroads").
(3) The 2003 activity represents a lump sum additional rent payment received from a tenant in connection with the re-anchoring of the Branch Plaza in Smithtown, NY.
