"We had another strong year, with respect to both our transactional activity and our operating results," stated Kenneth F. Bernstein, President and CEO of Acadia Realty Trust. "Looking ahead, to 2017 and beyond, our differentiated core

portfolio, which is largely concentrated in five key gateway markets, has a strong growth profile, driven by our 2016 acquisitions and opportunities to harvest embedded value within our existing portfolio. Complementing this, our buy-fix-sell fund platform continues to operate on all cylinders, as we profitably monetize our completed value-add projects and plant seeds for future profit-taking. With plenty of dry powder in each of our dual platforms, we like how we're positioned."

TRANSACTIONAL ACTIVITY

Core Acquisitions

During 2016, the Company completed \$627 million of previously-announced core acquisitions, of which approximately 70% were street retail and 30% were urban retail. All were completed within five key gateway markets – New York, NY; Chicago, IL; San Francisco, CA; Washington, DC; and Boston, MA – where more than 85% of Acadia's total core portfolio is now concentrated.

As anticipated, during the fourth quarter, Acadia closed on the \$141 million acquisition of 555 9th St, an urban retail property located in San Francisco.

Fund Acquisitions – Closed

During 2016, Acadia, on behalf of Fund IV, completed \$261 million of opportunistic and value-add investments. Of this amount, \$196 million was completed during the fourth quarter, as discussed below:

Northeast Grocery Portfolio, Various U.S. As previously reported, in October 2016, Fund IV acquired a portfolio of seven grocery-anchored shopping centers, totaling 1.1 million square feet, for \$83 million. Additionally, Fund IV made a short-term, \$9 million loan to the seller on an eighth grocery-anchored center (124,300 square feet), with an opportunity to purchase the property. The portfolio is located throughout the Northeast: Maine (five assets), Pennsylvania (two assets), and New York (one asset). The properties have excellent visibility and access to major thoroughfares and provide essential products and services to regional and urban areas. The grocery anchors include Hannaford, Price Chopper, and Shaw's. The portfolio's leased rate is 89%. This investment is consistent with the Fund platform's high-yield opportunistic strategy.

717 N Michigan Ave, Gold Coast, Chicago, IL. As previously reported, in December 2016, Fund IV acquired a 61,600-square foot, four-story street-retail property, located in Chicago, IL, for \$104 million. This flagship property anchors a prime corner of the Magnificent Mile, one of the nation's premier shopping districts. Neighboring retailers include Saks Fifth

Avenue, Zara, Tiffany & Co., Stuart Weitzman, and Brooks Brothers. The property is 25% leased to The Disney Store, who has operated at the property since 1999. Acadia intends to redevelop the balance of the property, which was previously occupied by Saks Fifth Avenue Men's Store.

Fund Acquisitions – Pipeline

As previously reported, Acadia has entered into a contract to acquire a high-yielding shopping center, on behalf of Fund IV, for \$35 million. Although no assurance can be given, this transaction is anticipated to close during the first quarter 2017.

Fund Dispositions

During 2016 and year-to-date 2017, the Company completed \$230 million of dispositions on behalf of Funds III and IV. Of this amount, \$58 million closed during the fourth quarter and \$19 million closed in January 2017, as discussed below:

Cortlandt Town Center, Mohegan Lake, NY. As previously reported, in December 2016, Fund III successfully completed the sale of its remaining 35% interest in Cortlandt Town Center, a 641,000-square foot power center located in Westchester County, NY, for \$58 million. This equates to a \$165 million valuation for 100% of the property, compared to Fund III's all-in cost basis of \$95 million. In January 2009, Fund III acquired the property for \$78 million. At the time, the property was 84% occupied, due to the bankruptcies of junior-anchors Linens 'n Things and Levitz Furniture. During its 7.9-year hold period, Fund III successfully increased the property's occupancy to 97%. In January 2016, the fund sold a 65% interest in this property to the same institutional investor at the same pricing. Fund III has now realized a 43% IRR and 3.5*x* multiple on its total equity investment in this asset.

2819 Kennedy Blvd, North Bergen, NJ. In January 2017, Fund IV, in partnership with MCB Real Estate, completed the sale of 2819 Kennedy Blvd, a 41,000-square foot retail property located in North Bergen, NJ, for \$19 million. This compares to an all-in cost basis of \$13 million. In June 2013, the fund acquired the owner-occupied property from Toys R Us, who, as planned, vacated the site. During its 3.7-year hold period, the fund completed a façade renovation and re-anchored the big box with Aldi and Crunch Fitness. This sale generated a 21% IRR and 2.5*x* multiple on the fund's equity investment.

Fund III Promote

During 2016, Fund III generated approximately \$10 million (\$0.13 per share) of net promote income for the Company; of this amount, approximately \$3.4 million (\$0.04 per share) was generated during the fourth quarter.

ACQUISITION DRY POWDER

Fund V

As previously announced, Acadia has approximately \$1.5 billion of buying power, on a leveraged basis, through its newlyraised Fund V. This fund, which raised \$520 million of total capital commitments during 2016, is the fifth in a series of institutional funds dedicated to making opportunistic and value-add investments in retail real estate.

Core Acquisition Matchfunding & Balance Sheet

No new equity was issued during the fourth quarter of 2016. During 2016, Acadia funded its acquisition activities by issuing \$479 million of equity, net of related costs, via: (*i*) a third-quarter block trade (\$172 million), (*ii*) its at-the-market ("ATM") facility (\$156 million), (*iii*) a public offering in April 2016 on a forward basis (\$123 million, of which the final \$93 million was settled during the fourth quarter in connection with the acquisition of 555 9th St), and (*iv*) issuance of operating-partnership units (\$28 million). In the aggregate, this new capital was raised at an average gross price of \$35.25 per unit/share (\$34.72 per unit/share net of related costs).

By matchfunding acquisitions, the Company has maintained its solid, low-leveraged balance sheet. As of December 31, 2016, the Company's net debt to EBITDA ratio for the Core Portfolio was 4.2x. Including its pro-rata share of Fund debt, the Company's net debt to EBITDA ratio was 5.2x over the same period.

CORE PORTFOLIO OPERATIONS

Excluding redevelopment activities, same-property NOI in the Core Portfolio increased 3.7% for the quarter ended December 31, 2016, compared to 2015. For the full year 2016, same-property NOI increased 3.4%.

The Core Portfolio was 96.2% occupied and 96.3% leased as of December 31, 2016, compared to 96.3% occupied and 96.5% leased as of September 30, 2016. The leased rate includes space that is leased but not yet occupied.

During the quarter, the Company generated a 22.4% increase in average rents on a GAAP basis, and a 7.7% increase on a cash basis, on 17 new and renewal leases aggregating 91,000 square feet.

2017 GUIDANCE

The Company forecasts that its 2017 annual EPS will range from \$0.58 to \$0.63 and 2017 FFO will range from \$1.44 to \$1.54 per share. These forecasts, and the comparable 2016 FFO, both presented below, are before any acquisition expenses and retirement charges:

| | 2017 | 2017 | 2016 |
|---|---------|---------|---------|
| Dollars in millions, except per share amounts | Low | High | Actual |
| Core and pro-rata share of Funds' portfolio income | \$142.0 | \$151.5 | \$125.9 |
| Fund fee income, net of taxes | 20.9 | 22.9 | 21.1 |
| Other Fund and transactional income | 0.5 | 0.5 | 10.4 |
| General and administrative expenses | (32.5) | (33.0) | (31.0) |
| FFO attributable to Common Shareholders and Common OP | | | |
| Unit holders | \$130.9 | \$141.9 | \$126.4 |
| FFO per Common Share and Common OP Unit | \$1.44 | \$1.54 | \$1.55 |

The following is a reconciliation of the calculation of forecasted earnings per diluted share and FFO per diluted share:

| Guidance Range for 2017 | Low | High |
|---|--------|--------|
| Earnings per share | \$0.58 | \$0.63 |
| Depreciation of real estate and amortization of leasing costs | | |
| (net of noncontrolling interests' share) | 0.99 | 1.01 |
| Gain on disposition of properties | (0.12) | (0.08) |
| Noncontrolling interest in Operating Partnership | (0.01) | (0.02) |
| FFO per Common Share and Common OP Unit | \$1.44 | \$1.54 |

Excluding redevelopment activities, the Company is assuming an increase in Core Portfolio same-property NOI of 0.0% to 2.0%. Our same-property NOI assumes the recapture and resulting downtime of nearly 300 BPS of occupancy in our street retail portfolio, which we expect to release at strong leasing spreads throughout 2017 and into 2018 resulting in same-property NOI growth consistent with our historical norms.

Management will discuss its 2017 earnings guidance and related assumptions in further detail on its scheduled year-end investor conference call.

Notes to Financial Highlights:

¹ For additional information and analysis concerning the Company's results of operations, reference is made to the Company's Quarterly Supplemental Disclosure furnished on Form 8-K to the SEC and included on the Company's website at <u>www.acadiarealty.com</u>.

² Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue Common Shares were exercised or converted into Common Shares. The effect of the conversion of Common OP Units is not reflected in the above table as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on the same basis and reflected as noncontrolling interests in the consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share.

³ The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and net property operating income ("NOI") to be appropriate supplemental disclosures of operating performance for an equity REIT due to their widespread acceptance and use within the REIT and analyst communities. FFO and NOI are presented to assist investors in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property, depreciation and amortization, and impairment of depreciable real estate. In addition, NOI excludes interest expense. The Company's method of calculating FFO and NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property, plus depreciation and amortization, impairment of depreciable real estate, and after adjustments for unconsolidated partnerships and joint ventures.

⁴ In addition to the weighted average Common Shares outstanding, basic and diluted FFO also assume full conversion of a weighted average 4,474 and 3,882 OP Units into Common Shares for the quarters ended December 31, 2016 and 2015, respectively and 4,435 and 3,895 OP Units into Common Shares for the years ended December 31, 2016 and 2015, respectively. Diluted FFO also includes the assumed conversion of Preferred OP Units into 424 and 25 Common Shares for the years ended December 31, 2016 and 2015, respectively and 433 and 25 Preferred OP Units into Common Shares for the years ended December 31, 2016 and 2015, respectively. In addition, diluted FFO also includes the effect of 112 and 286 employee share options, restricted share units and LTIP units for the quarters ended December 31, 2016 and 2015, respectively and 151 and 297 employee share options, restricted share units and LTIP units for the years ended December 31, 2016 and 2015, respectively.

⁵ The Pro-rata portion share of NOI is based upon our stated ownership percentages in each operating agreement.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this supplemental disclosure may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 and as such may involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative thereof or other variations thereon or comparable terminology. Factors which could have a material adverse effect on the operations and future prospects of the Company include, but are not limited to those set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K. These risks and uncertainties should be considered in evaluating any forward-looking statements contained or incorporated by reference herein.

USE OF FUNDS FROM OPERATIONS AS NON-GAAP FINANCIAL MEASURE

The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of property and depreciation and amortization. However, the Company's method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The Company believes that income or gains derived from its RCP investments, including its investment in Albertson's, are private-equity investments and, as such, should be treated as operating income and therefore FFO. The Company believes that this supplemental adjustment more appropriately reflects the results of its operations. The Company also provides one other supplemental disclosure of operating performance, adjusted funds from operations ("AFFO"). The Company defines AFFO as FFO adjusted for straight line rent, non-real estate depreciation, amortization of finance costs and costs of management contracts, tenant improvements,

USE OF NON-GAAP FINANCIAL MEASURES

Non-GAAP financial measures such as EBITDA, NOI, Same-Property NOI and lease spreads are widely used financial measures in many industries, including the REIT industry, and are presented to assist investors and analysts in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses including impairment charges) on the sale of income producing properties. The Company computes NOI by taking the difference between Property Revenues and Property Expenses as detailed in this reporting supplement. Same-Property NOI includes properties in our Core Portfolio that we owned for both the current and prior periods presented, but excludes those properties which we acquired, sold or expected to sell, and redeveloped during these periods. The Company's method of calculating EBITDA, NOI and Same-Property NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA, NOI and Same-Property NOI do not represent cash generated from operations as defined by GAAP and are not indicative of cash available to fund all cash needs, including distributions. They should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.
