#### CORE AND FUND TRANSACTIONAL ACTIVITY

#### **Core Acquisition (Previously Announced)**

The Company completed the following Core acquisition totaling approximately \$85 million during the second quarter.

Henderson Avenue Portfolio, Dallas, Texas. As previously announced, in April 2022, the Company completed its first acquisition in the Knox-Henderson corridor of Dallas, Texas with its purchase of the Henderson Avenue Portfolio ("Portfolio") for approximately \$85 million, inclusive of transaction costs. The Portfolio is comprised of 14 operating retail assets, one residential building and two development and redevelopment sites on Henderson Avenue. The Portfolio is located in the heart of rapidly growing East Dallas, and in proximity to the city's most affluent communities of Highland Park, University Park, Uptown and Lakewood.

The Portfolio includes a strong line up of digitally-native retailers such as Warby Parker, Tecovas and Bonobos, and a collection of some of the most popular restaurants in the city, as well as a high-performing supermarket, Sprouts Farmers Market.

Significant redevelopment and densification opportunities are expected to enable the Company to add retail and office space to this Portfolio and further connect and activate this already thriving district. The Company intends to partner with a local development team to oversee the execution of these projects.

#### City Point Refinancing and Recapitalization

In August 2022, Acadia refinanced and de-levered City Point, an approximately 550,000 square foot flagship retail property in Downtown Brooklyn, New York, held through Fund II. The approximately \$295 million of aggregate debt on the property was refinanced with a single mortgage loan of approximately \$200 million (with approximately \$130 million of initial proceeds). The new loan has a three-year initial term, resulting in annual interest savings in excess of 150 basis points as compared to the prior blended interest rate. The Company provided a loan to its partners of approximately \$65 million to fund their share of the refinancing and recapitalization of City Point.

Additionally, during the second quarter and post-quarter to date, the Company increased its effective ownership in Fund II from approximately 28% to approximately 62%, consistent with its long-standing goal to expand its ownership in City Point. During the second quarter, in conjunction with a multi-asset secondary offering by one of its limited partners, the Company was able to opportunistically acquire an additional 12% interest in City Point, increasing its ownership to approximately 40% at June 30, 2022. In August 2022, based upon the pricing used to acquire the 12% interest, the Company acquired an additional 22% interest in City Point from other investors, further increasing its interest to approximately 62%. The purchase price of the combined 33% interest was approximately \$120 million, inclusive of approximately \$110 million of assumed obligations. In addition, the remaining partners have certain redemption rights that could enable the Company to further increase its ownership.

The Company anticipates the refinancing and recapitalization to be slightly accretive in 2022 with further accretion in the next several years as City Point achieves stabilization.

City Point is located at the center of a densifying Downtown Brooklyn, which has seen approximately 18,000 new residential units since the area was rezoned. Several new and exciting tenants are anticipated to open at City Point over the next several months, most notably Sixpoint Brewery and Primark, who is replacing the former anchor, Century 21.

#### **Fund Transactional Activity**

**Lincoln Place (Fund IV).** In May 2022, Fund IV completed the disposition of its property located in Illinois for approximately \$41 million and repaid the mortgage of \$22.7 million. This sale generated a 14% IRR and 1.8x multiple on the Fund's equity investment.

Additionally, Fund V has an approximately \$50 million acquisition in its pipeline. No assurance can be given that Fund V will successfully close on acquisitions in its pipeline, which are subject to customary conditions and market uncertainty.

#### **CORE PORTFOLIO LEASING**

During the second quarter, GAAP and cash leasing spreads were 15.4% and 4.3%, respectively, on 14 conforming new and renewal leases aggregating approximately 82,000 square feet.

As of June 30, 2022, the Core Portfolio was 90.5% occupied and 94.1% leased, representing 3.6% of signed but not yet commenced rents. As of March 31, 2022, the Core Portfolio was 90.5% occupied and 94.1% leased. The leased rate includes space that is leased but not yet occupied and excludes development and redevelopment properties.

During the second quarter and post-quarter to date, the Company continued to execute leases in its Core Portfolio, with Street leases signed on M Street in Washington D.C., Greenwich Avenue in Greenwich, CT and in Soho, NY.

#### **BALANCE SHEET AND LIQUIDITY**

As previously announced, in April 2022, the Company closed on a new \$175 million five-year unsecured term loan. Additionally, in July 2022, the Company closed on a \$75 million seven-year unsecured term loan. The proceeds of these loans were used to repay outstanding amounts under the revolving credit facility.

As of June 30, 2022, approximately 90% of the Company's Core debt is fixed, inclusive of interest rate swap contracts with a weighted average duration of approximately 6 years.

#### **Notes to Financial Highlights:**

- (a) For additional information and analysis concerning the Company's balance sheet and results of operations, reference is made to the Company's quarterly supplemental disclosures for the relevant periods furnished on the Company's Current Report on Form 8-K made available on the Company's website at www.acadiarealty.com.
- (b) See the Company's Annual Report on Form 10-K and revised Restatement 8-K filed with the SEC on March 1, 2022 for a detailed reconciliation to previously reported amounts and a detailed description of adjustments thereon. The restatement primarily impacted the classification of certain amounts within the Company's consolidated balance sheets, statements of operations and statements of cash flows.
- (c) Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common shares of the Company were exercised or converted into common shares. The effect of the conversion of units of limited partnership interest ("OP Units") in Acadia Realty Limited Partnership, the "Operating Partnership" of the Company, is not reflected in the above table; OP Units are exchangeable into common shares on a one-for-one basis. The income allocable to such OP units is allocated on the same basis and reflected as noncontrolling interests in the consolidated financial statements. As such, the assumed conversion of these OP Units would have no net impact on the determination of diluted earnings per share.
- The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and net property operating income ("NOI") to be appropriate supplemental disclosures of operating performance for an equity REIT due to their widespread acceptance and use within the REIT and analyst communities. In addition, the Company believes that given the atypical nature of certain unusual items (as further described below), "FFO Before Special Items" is also an appropriate supplemental disclosure of operating performance. FFO, FFO Before Special Items and NOI are presented to assist investors in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of real estate property, depreciation and amortization, and impairment of real estate property. In addition, NOI excludes interest expense and FFO Before Special Items excludes certain unusual items (as further described below). The Company's method of calculating FFO and NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. Neither FFO nor FFO Before Special Items represent cash generated from operations as defined by generally accepted accounting principles ("GAAP"), or are indicative of cash available to fund all cash needs, including distributions. Such measures should not be considered as an alternative to net income (loss) for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of real estate property, plus depreciation and amortization, impairment of real estate property, and after adjustments for unconsolidated partnerships and joint ventures. Also consistent with NAREIT's definition of FFO, the Company has elected to include gains and losses incidental to its main business (including those related to its RCP investments such as Albertsons) in FFO. FFO Before Special Items begins with the NAREIT definition of FFO and adjusts FFO to take into account FFO without regard to certain unusual items including charges, income and gains that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio and, in particular, the impact of the unrealized mark-to-market gain and loss attributable to the Company's investment in Albertsons.
- (e) The pro-rata share of NOI is based upon the Operating Partnership's stated ownership percentages in each venture or Fund's operating agreement and does not include the Operating Partnership's share of NOI from unconsolidated joint ventures within the Funds.

<sup>2.</sup> 3. Rents are calculated on a straight-line ("GAAP") basis and do not incorporate above- or below-market lease adjustments.

Rents have not been calculated on a straight-line basis. Previous/expiring rent is that as of time of expiration and includes any percentage rent paid as well. New rent is that which is paid at commencement.

- 1. Acadia's "Promoted Share" reflects Acadia's share of fund profits once all partners (including Acadia) have received a return of their cumulative contributions plus their cumulative preferred return. Acadia's Promoted Share equals a 20% promote plus Acadia's pro rata share of the remaining 80%.
- 2. With regard to Fund II, the additional contributions over original Fund Size reflects prior-period distributions that were re-contributed to the Fund during 2016, 2020 and 2021 to fund the on-going redevelopment of existing Fund II investments.
- 3. Net of fees and promote. Fund I has made its final distribution and was fully liquidated in 2018.
- 4. Unfunded Commitments are set aside to complete leasing and development at existing fund investments and to make new Fund V investments. The Unfunded Commitment will not equal Fund Size less Cumulative Contributions in those instances where certain fund distributions have been marked as recallable or where the fund has released commitments due to, among other reasons, the closing of the fund's investment period or accelerated asset sales.
- 5. Unfunded Commitments available to deploy into new unidentified investments.
- 6. Implied Capital is Fund Size less capital attributed to sold investments or released. Post-investment period, Fund IV Implied Capital also excludes \$41.9 million of general reserves.
- 7. Implied Capital is Fund Size less capital attributed to sold investments or released. Allocated Capital Commitments are computed as the Fund Size less Acquisition Dry Powder.

## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this supplemental disclosure may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 and as such may involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative thereof or other variations thereon or comparable terminology. Factors which could have a material adverse effect on the operations and future prospects of the Company include, but are not limited to those set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K. These risks and uncertainties should be considered in evaluating any forward-looking statements contained or incorporated by reference herein.

## USE OF FUNDS FROM OPERATIONS AS NON-GAAP FINANCIAL MEASURE

The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of property and depreciation and amortization. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Also consistent with NAREIT's definition of FFO, the Company has elected to include gains and losses incidental to its main business (including those related to its RCP investments such as Albertsons) in FFO.

The Company also provides another supplemental disclosure of operating performance, adjusted funds from operations ("AFFO"). The Company defines AFFO as FFO adjusted for straight line rent, non-real estate depreciation, stock-based compensation, amortization of finance costs and costs of management contracts, tenant improvements, leasing commissions and capital expenditures.

The Company may also provide from time to time another supplemental disclosure of operating performance, FFO Before Special Items. The Company defines FFO Before Special Items as FFO adjusted for certain unusual items including charges, income and gains that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio.

It should be noted that the Company's methods of calculating FFO, AFFO or FFO Before Special Items may be different from methods used by other REITs and, accordingly, may not be comparable to such metrics used by other REITs. FFO, AFFO and FFO Before Special Items do not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and are not indicative of cash available to fund all cash needs, including distributions. None of these measures should be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.

## **USE OF NON-GAAP FINANCIAL MEASURES**

Non-GAAP financial measures such as EBITDA, NOI, Same-Property NOI and lease spreads are widely used financial measures in many industries, including the REIT industry, and are presented to assist investors and analysts in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses including impairment charges) on the sale of income producing properties. The Company computes NOI by taking the difference between Property Revenues and Property Expenses as detailed in this reporting supplement. Same-Property NOI includes properties in our Core Portfolio that we owned for both the current and prior periods presented, but excludes those properties which we acquired, sold or expected to sell, and redeveloped during these periods. The Company's method of calculating EBITDA, NOI and Same-Property NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA, NOI and Same-Property NOI do not represent cash generated from operations as defined by GAAP and are not indicative of cash available to fund all cash needs, including distributions. They should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.
