SELLING SECURITY HOLDERS

The information appearing in the table below with respect to the selling security holders named therein supplements the information with respect to such selling security holders in the table appearing under the heading “Selling Security Holders” in the prospectus supplement dated April 2, 2007. The information is based solely on information provided to us by or on behalf of the selling security holders. The number of common shares issuable upon conversion of the notes shown in the table below assumes conversion of the full amount of notes held by each holder and offered hereby at the initial conversion rate of 32.4002 common shares per \$1,000 principal amounts of the notes. This conversion rate is subject to adjustments in certain circumstances. Because the selling security holders may offer all or some portion of the notes or common shares issuable upon conversion of the notes, we have assumed for purposes of the table below that the named selling security holders will sell all of the notes or convert all of the notes and sell all of the common shares issuable upon conversion of the notes offered pursuant to this prospectus supplement and the prospectus supplement dated April 2, 2007. In addition, the selling security holders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act.
