**RYE, NY (November 03, 2020)** - Acadia Realty Trust (NYSE: AKR) (“Acadia” or the “Company”) today reported operating results for the quarter ended September 30, 2020. All per share amounts are on a fully-diluted basis, where applicable.

*Please refer to the tables and notes accompanying this press release for further details on operating results and additional disclosures related to net income, funds from operations (“FFO”) as per NAREIT and before Special Items (discussed below), and net property operating income (“NOI”) which were impacted due to the COVID-19 Pandemic.*

### **Third Quarter Highlights**

- **Core Portfolio Cash Collections:** Continued improvement in cash collections:
  - Collected 90% of September 2020 billed rents and recoveries

- Made no new investments during the third quarter; Fund V continues to make cash distributions

Bernstein, President and CEO of Acadia Realty Trust. “Additionally, while we remain cognizant of the challenges and resulting uncertainties that may transpire over the next several months, we are encouraged by our recently executed leases as well as our growing pipeline. Lastly, we are beginning to see actionable investment opportunities emerge for our fund platform.”

**OPERATIONS UPDATE**

**COVID-19 Impact on Operations**

Third quarter results were negatively impacted by approximately \$0.15 related to credit losses, of which \$0.06 arose from straight-line rent reserves. The amounts below represent Acadia’s share of credit losses, straight-line rent reserves and tenant abatements associated with the COVID-19 Pandemic (in millions):

	Core Same Store	Core Other	Funds	Total	Per Share
Credit Loss - Billed Rents and recoveries <sup>(a)</sup>	\$ 5.5	\$ 0.4	\$ 1.4	\$ 7.3	\$ 0.08
Straight-Line Rent Reserves <sup>(b)</sup>	N/A	2.1	3.1	5.2	0.06
Rent Abatements	0.6	0.2	—	0.8	0.01
<b>Total</b>	<b>\$ 6.1</b>	<b>\$ 2.7</b>	<b>\$ 4.5</b>	<b>\$ 13.3</b>	<b>\$ 0.15</b>

- a) Amount represents reserves taken against a tenant’s rent and recoveries that were billable pursuant to the terms of a lease agreement.  
b) Amount represents reserves against a tenant’s straight-line rent balance. The balance is derived from the cumulative difference, generally from inception of the lease, between a tenant’s billed rents and the amount of rent recognized in earnings on a straight-line basis over the life of the lease.

**Core Portfolio Cash Collections**

At October 30, 2020, monthly and quarterly cash collections for the Core Portfolio were as follows:

Asset Type	July 2020	August 2020	September 2020	Q3 2020

Suburban	85%	90%	91%	88%
Total Core Portfolio	83%	88%	90%	87%

Additionally, through October 30, 2020, the Company has collected approximately 90% of October 2020 billed rents and recoveries comprised of 89% and 92% for Street/Urban and Suburban, respectively.

All amounts are based upon pre-COVID billings (original contract rents without regard to deferral or abatement agreements) and exclude the impact of any security deposits applied against tenant accounts.

## ACADIA REALTY TRUST AND SUBSIDIARIES

### Notes to Financial Highlights:

- (a) For additional information and analysis concerning the Company's balance sheet and results of operations, reference is made to the Company's quarterly supplemental disclosures for the relevant periods furnished on Form 8-K to the SEC and included on the Company's website at [www.acadiarealty.com](http://www.acadiarealty.com).
- (b) Diluted earnings and (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares. The effect of the conversion of common units of partnership interest ("OP Units") in Acadia Realty Limited Partnership, the "Operating Partnership" of the Company, is not reflected in the above table as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on the same basis and reflected as noncontrolling interests in the consolidated financial statements. As such, the assumed conversion of these OP Units would have no net impact on the determination of diluted earnings per share.
- (c) The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and net property operating income ("NOI") to be appropriate supplemental disclosures of operating performance for an equity REIT due to their widespread acceptance and use within the REIT and analyst communities. In addition, the Company believes that given the atypical nature of certain unusual items (as further described below), "FFO before Special Items" is also an appropriate supplemental disclosure of operating performance. FFO, FFO before Special Items and NOI are presented to assist investors in analyzing the performance of the Company. They are helpful as they exclude various items included in net income (loss) that are not indicative of the operating performance, such as gains (losses) from sales of real estate property, depreciation and amortization, and impairment of real estate property. In addition, NOI excludes interest expense and FFO before Special Items excludes certain unusual items (as further described below). The Company's method of calculating FFO and NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. Neither FFO nor FFO before Special Items represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of real estate property, plus depreciation and amortization, impairment of real estate property, and after adjustments for unconsolidated partnerships and joint ventures. Also consistent with NAREIT's definition of FFO, the Company has elected to include gains and losses incidental to its main business (including those related to its RCP investments such as Albertsons) in FFO. FFO before Special Items begins with the NAREIT definition of FFO and further adjusts FFO to take into account FFO without regard to certain unusual items including charges, income and gains that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio.
- (d) Series C Preferred OP Units are anti-dilutive for the three months ended September 30, 2020.
- (e) The pro-rata share of NOI is based upon the Operating Partnership's stated ownership percentages in each venture or Fund's operating agreement. Does not include the Operating Partnership's share of NOI from unconsolidated joint ventures within the Funds.

- Acadia's "Promoted Share" reflects Acadia's share of fund profits once all partners (including Acadia) have received a return of their cumulative contributions plus their cumulative preferred return. Acadia's Promoted Share equals a 20% promote plus Acadia's pro rata share of the remaining 80%.
- With regard to Fund II, the additional contributions over original Fund Size reflects prior-period distributions that were re-contributed to the Fund during 2016 and 2020 to fund the on-going redevelopment of existing Fund II investments.
- Net of fees and promote. Fund I has made its final distribution and was fully liquidated in 2018.
- Unfunded Commitments are set aside to complete leasing and development at existing fund investments and to make new Fund V investments. The Unfunded Commitment will not equal Fund Size less Cumulative Contributions in those instances where certain fund distributions have been marked as callable or where the fund has released commitments due to, among other reasons, the closing of the fund's investment period or accelerated asset sales.
- Unfunded Commitments available to deploy into new unidentified investments.
- Implied Capital is Fund Size less capital attributed to sold investments or released. Post-investment period, Fund IV Implied Capital also excludes \$50.0 million of general reserves.
- Implied Capital is Fund Size less capital attributed to sold investments or released. Allocated Capital Commitments are computed as the Fund Size less Acquisition Dry Powder and trued up on a quarterly basis with fees retroactive to August 2020.

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

Certain statements contained in this supplemental disclosure may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 and as such may involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative thereof or other variations thereon or comparable terminology. Factors which could have a material adverse effect on the operations and future prospects of the Company include, but are not limited to those set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K. These risks and uncertainties should be considered in evaluating any forward-looking statements contained or incorporated by reference herein.

**USE OF FUNDS FROM OPERATIONS AS NON-GAAP FINANCIAL MEASURE**

The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of property and depreciation and amortization. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Also consistent with NAREIT's definition of FFO, the Company has elected to include gains and losses incidental to its main business (including those related to its RCP investments such as Albertsons) in FFO.

The Company also provides another supplemental disclosure of operating performance, adjusted funds from operations ("AFFO"). The Company defines AFFO as FFO adjusted for straight line rent, non-real estate depreciation, stock-based compensation, amortization of finance costs and costs of management contracts, tenant improvements, leasing commissions and capital expenditures.

The Company may also provide from time to time another supplemental disclosure of operating performance, FFO Before Special Items. The Company defines FFO Before Special Items as FFO adjusted for certain unusual items including charges, income and gains that management believes are not comparable and indicative of the results of the Company's operating real estate portfolio.

It should be noted that the Company's methods of calculating FFO, AFFO or FFO Before Special Items may be different from methods used by other REITs and, accordingly, may not be comparable to such metrics used by other REITs. FFO, AFFO and FFO Before Special Items do not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and are not indicative of cash available to fund all cash needs, including distributions. None of these measures should be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.

**USE OF NON-GAAP FINANCIAL MEASURES**

Non-GAAP financial measures such as EBITDA, NOI, Same-Property NOI and lease spreads are widely used financial measures in many industries, including the REIT industry, and are presented to assist investors and analysts in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses including impairment charges) on the sale of income producing properties. The Company computes NOI by taking the difference between Property Revenues and Property Expenses as detailed in this reporting supplement. Same-Property NOI includes properties in our Core Portfolio that we owned for both the current and prior periods presented, but excludes those properties which we acquired, sold or expected to sell, and redeveloped during these periods. The Company's method of calculating EBITDA, NOI and Same-Property NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA, NOI and Same-Property NOI do not represent cash generated from operations as defined by GAAP and are not indicative of cash available to fund all cash needs, including distributions. They should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.
