Acadia Realty Trust Reports Fourth Quarter and Full Year 2009 Operating Results

NEW YORK--(BUSINESS WIRE)--February 9, 2010--Acadia Realty Trust (NYSE:AKR), today reported operating results for the quarter and year ended December 31, 2009. All per share amounts are on a fully diluted basis. The information presented below for 2008 has been adjusted as described in footnote 5 to the Financial Highlights tables.

Fourth Quarter and Full Year 2009 Highlights

Earnings - fourth quarter and full year FFO of \$0.25 and \$1.28, EPS of \$0.12 and \$0.75

- · Funds from operations ("FFO") per share of \$0.25 for the fourth quarter 2009 compared to \$0.09 for fourth quarter 2008 and \$1.28 for the year ended December 31, 2009 compared to \$1.09 for the year ended December 31, 2008
- · Earnings (loss) per share ("EPS") from continuing operations for fourth quarter 2009 of \$0.12 compared to \$(0.15) for fourth quarter 2008 and \$0.75 for the year ended December 31, 2009 compared to \$0.50 for the year ended December 31, 2008

Balance Sheet - Strong Liquidity and Limited Exposure to Maturities

- · No significant core portfolio debt maturities before December 2011 (including extension options) when \$50 million balance of convertible notes are due
- · Cash on hand and availability under current facilities of approximately \$130 million at year-end
- · Fixed-charge coverage ratio of 3.2 to 1 for the year and 2.8 to 1 for the quarter ended December 31, 2009
- · Core portfolio debt yield of 13% and 17% on debt net of cash on hand
- · Raised approximately \$65 million of net proceeds from public equity offering during 2009
- · To date purchased \$65 million of face value of the Company's outstanding convertible debt

Core Portfolio - Net Operating Income consistent with the upper end of 2009 forecast

- Same store net operating income decreased 2.6% for the year and 3.6% for the quarter ended December 31, 2009 compared to the same periods in 2008
- \cdot Year-end 2009 occupancy at 92.6% versus 92.5% at September 30, 2009
- $\cdot \qquad \text{During the fourth quarter, sold non-core property, located in Northeast Pennsylvania, at a 7.4\% capitalization rate} \\$

Opportunity Funds - Leasing and Financing Progress

- · Received \$3.0 million in distributions from RCP Venture investments during the fourth quarter
- · Leased an additional 33,000 square feet at the Canarsie Plaza (Brooklyn) project, construction financing obtained
- · Executed 36,000 square foot lease with Bed, Bath and Beyond to re-tenant the former Linens 'n Things space at Cortlandt Towne Center

Fourth Quarter and Full Year 2009 Operating Results

For the quarter ended December 31, 2009, FFO was \$10.0 million, compared to \$3.2 million for the quarter ended December 31, 2008. For the year ended December 31, 2009, FFO was \$49.6 million compared to \$38.0 million for the year ended December 31, 2008.

Earnings (losses) for the quarters and years ended December 31, 2009 and 2008 were as follows:

		Qt	iarter ended					Year ended		
		De	ecember 31,		December 31,					
	2009		2008	Variance		2009		2008		<u>Variance</u>
FFO per share	\$ 0.25	\$	0.09	\$ 0.16	\$	1.28	\$	1.09	\$	0.19
EPS from continuing operations	\$ 0.12	\$	(0.15)	\$ 0.27	\$	0.75	\$	0.50	\$	0.25
EPS	\$ 0.16	\$	(0.15)	\$ 0.31	\$	0.82	\$	0.73	\$	0.09

For the fourth quarter 2009 compared with the fourth quarter 2008, the primary factors which contributed to the increase in EPS from continuing operations were charges of \$0.13 in 2008 related to a mezzanine loan and \$0.08 associated with the bankruptcy of Circuit City in 2008.

In addition to the above items, for the full year 2009 compared with the full year 2008, the primary factors which contributed to the increase in EPS from continuing operations were \$0.17 of additional interest income from the full year effect of 2008 mezzanine financing and preferred equity investments, and \$0.16 of gain on the purchase of the Company's outstanding convertible debt. These were partially offset by \$0.09 of dilution from the issuance of additional Common Shares in 2009, an \$0.08 decrease in RCP Venture income during 2009, net of noncontrolling interests' share and income taxes, and a \$0.07 decrease in lease termination income for 2009, net of noncontrolling interests' share.

Discontinued operations decreased \$0.16 for the year ended December 31, 2009 as compared to the same period in 2008 primarily as a result of a gain recognized on the sale of a core property in 2008

Strong Balance Sheet with Available Capital

As of December 31, 2009, Acadia's solid balance sheet was evidenced by the following:

- Total liquidity of \$130 million, including \$72 million of cash and \$58 million available under existing lines of credit (excluding the Funds' cash and credit facilities)
- · Including extension options, no significant core portfolio debt maturities before December 2011 when \$50 million of convertible notes are due
- Debt yield of 13% (annualized net operating income divided by principal amount of debt) and net debt yield of 17% (annualized net operating income divided by principal amount of debt less cash on hand) on the core portfolio debt. Including the Company's pro-rata share of Fund debt, a debt yield of 12% and a net debt yield of 15%
- · Fixed-charge coverage ratio of 3.2 to 1 for the year and 2.8 to 1 for the quarter ended December 31, 2009
- · 100% of the Company's core portfolio debt is fixed-rate at an average interest rate of 5.8%. Including the Company's pro-rata share of Fund debt, 86% of the Company's debt is fixed-rate at an average interest rate of 5.3%

At December 31, 2009, opportunity fund ("Fund") debt maturities and capital availability were as follows:

- Mortgage debt maturities at the Fund level through 2011 total \$48 million, of which Acadia's pro-rata share was \$9.6 million. In addition, borrowings against subscription lines, which are collateralized by unfunded capital commitments, amounted to \$48 million and \$140 million for Fund II and Fund III, respectively. Acadia's pro-rata share of the subscription line borrowings aggregated \$37.6 million
- \$406 million of committed Fund III investor capital is unfunded at year end. Approximately \$56 million of this amount has been allocated as equity for existing investments. The remaining \$350 million of unallocated investor capital commitments is available for Fund III's equity component in additional investments. Acadia's pro-rata share of the \$406 million of total unfunded capital is \$81 million

Also during 2009, Acadia issued 5.75 million Common Shares generating net proceeds of approximately \$65 million, and, to date, has purchased \$65 million of face value of the Company's outstanding convertible debt at an average 13% yield to maturity on the transactions.

Retail Portfolio Performance

Through December 2009, the core portfolio performed consistent with the upper end of the Company's 2009 forecast. The core portfolio includes the Company's pro-rata share of its joint venture properties, but excludes the Funds. For the year ended December 31, 2009, same store net operating income ("NOI") decreased 2.6% from the year ended December 31, 2008; approximately half of which was the result of the bankruptcy of Circuit City. Same store NOI decreased 3.6% for the fourth quarter 2009 from the fourth quarter 2008. In addition to the impact of Circuit City, the termination of Acme Markets, as previously discussed by the Company, accounted for a 2.0% decline in NOI for the quarter.

Acadia's core portfolio occupancy was 92.6% as of December 31, 2009. This represents an increase of 10 basis points from 92.5% occupancy at September 30, 2009, and a decrease of 300 basis points from December 31, 2008 occupancy of 95.6%. During 2009, the Company elected to enter into a lease termination agreement with Acme Markets at the Marketplace of Absecon in New Jersey, in order to re-tenant its 44,800 square foot anchor space in the core portfolio. Acadia received a \$2.5 million lease termination payment in connection with this agreement and has re-leased approximately 24,100 square feet, or 54%, of the former Acme space. This accounted for approximately 50 basis points of occupancy decline for 2009.

Acadia's combined portfolio occupancy, including its pro-rata share of its joint venture properties and its Funds, was 91.9% as of December 31, 2009. This represents an increase of 20 basis points from 91.7% occupancy at September 30, 2009 and a decrease of 330 basis points from December 31, 2008 occupancy of 95.2%.

In connection with portfolio recycling activities, during the fourth quarter Acadia sold a 125,000 square foot property located in Wilkes-Barre, Pennsylvania for \$2.5 million, representing a 7.4% capitalization rate.

During the fourth quarter of 2009, the Company realized an increase in average rent of 10.0% in its core portfolio on new and renewal leases totaling 162,000 square feet. Excluding the effect of the straight-lining of rents, the Company realized a decline in average rent of 6.7%. Excluding the impact of the re-anchoring of the Absecon property as discussed above, the Company realized an average rent increase of 13.3% in its core portfolio on new and renewal leases and an average rent increase of 4.5%, excluding the effect of the straight-lining of rents.

Opportunity Funds - Leasing, Financing and Construction Progress at Canarsie, Brooklyn Project; RCP Venture Distributions Received

Of the nine Fund II New York Urban Infill Redevelopment projects, construction is substantially complete on six developments which are in the process of stabilization. On the seventh, Canarsie Plaza, during the quarter, the Company executed a lease for 33,000 square feet with the New York City Police Department. Together with the BJ's Wholesale Club lease, the project is now 80% preleased and construction has commenced. Subsequent to December 31, 2009, the Company closed on a new \$48 million construction loan for the project.

The remaining two properties are currently in design phase. At one of these locations, CityPoint, the Company will now develop this project in four phases. The project has been conditionally awarded \$20 million of federal stimulus bond financing to fund the construction of 50,000 square feet of retail, representing the first of these phases. Construction is anticipated to commence during the second half of 2010.

During the fourth quarter, Fund II received distributions from its Retailer Controlled Property Venture ("RCP Venture") investments totaling \$3.0 million. Acadia's share of the income, after deducting noncontrolling interests' share and taxes, was \$0.3 million.

Outlook - Earnings Guidance for 2010

The Company forecasts its 2010 annual FFO will range from \$0.95 to \$1.00 per share and 2010 EPS from \$0.46 to \$0.51. This guidance is before contributions from potential 2010 acquisitions and before any potential income from Acadia's RCP investments, promote or lease termination income. For the core portfolio, the Company is assuming occupancy to be flat to up 100 basis points by the end of 2010 and for same-store NOI to be between -2% and -4% for the year, reflecting the lagging effects of the 2009 downturn in the economy. The following table summarizes management's 2010 guidance (dollars in millions, except per share amounts):

	20	10		2009		
	Low		High		Actual	
Core and pro-rata share of opportunity fund portfolio income	\$ 45.5	\$	46.0	\$	44.0	
Asset and property management fee income, net of taxes	11.0		11.0		10.4	
Transactional fee income, net of taxes	6.0		7.0		7.1

FFO	\$ 39.0	\$	41.0	\$	49.6	
FFO per share	\$ 0.95	\$	1.00	\$	1.28	

The following is a reconciliation of the calculation of FFO per diluted share and earnings per diluted share:

Guidance Range for 2010	Low	High
Earnings per diluted share	\$ 0.46	\$ 0.51
Depreciation of real estate and amortization of leasing costs:		
Wholly owned and consolidated partnerships	0.44	0.44

Funds from operations	\$ 0.95	\$ 1.00

Management will discuss Acadia's 2010 earnings guidance in further detail on its fourth quarter earnings conference call.

Management Comments

"We are pleased with our fourth quarter results, which were consistent with our expectations" stated Kenneth F. Bernstein, President and CEO of Acadia Realty Trust. "While we are observing signs of stabilization in the shopping center sector, both with respect to the capital markets and tenant fundamentals, this fragile recovery will likely take several quarters before it translates into improvements in occupancy and NOI. Accordingly, we remain vigilant on sustaining the strength of our portfolio -- which is dominated by necessity and value-focused retail in dense, high barrier-to-entry locations -- and the strength of our balance sheet. We believe our liquidity, coupled with a significant portion of our Fund III capital still available for new investments, positions us to capitalize on potential opportunities as they arise."

exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on this same basis and reflected as minority interest in the consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share.

- ³ The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and net operating income ("NOI") to be appropriate supplemental disclosures of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO and NOI are presented to assist investors in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property and depreciation and amortization. In addition, NOI excludes interest expense. The Company's method of calculating FFO and NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.
- 4 In addition to the weighted average Common Shares outstanding, basic and diluted FFO also assumes full conversion of a weighted average 665 and 648 OP Units into Common Shares for the quarters ended December 31, 2009 and 2008, respectively, and 671 and 647 OP Units into Common Shares for the years ended December 31, 2009 and 2008, respectively. Diluted FFO also includes the assumed conversion of Preferred OP Units into 25 Common Shares for each of the quarters ended December 31, 2009 and 2008, and for each of the years ended December 31, 2009 and 2008. In addition, diluted FFO also includes the effect of employee share options of 281 and 282 Common Shares for the quarters ended December 31, 2009 and 2008, respectively, and 212 and 4552 Common Shares for the years ended December 31, 2009 and 2008, respectively.
- ⁵ Effective January 1, 2009, the Company adopted the following Financial Accounting Standards Board ("FASB") accounting pronouncements which require it to retrospectively restate previously disclosed consolidated financial statements. As such, certain prior period amounts have been reclassified in the unaudited consolidated financial statements to conform to the current period presentations.

The Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 810 "Consolidation" (formerly Statement of Financial Accounting Standard No. 160, "Noncontrolling Interests in Consolidated Financial Statements,") ("ASC Topic 810") which, among other things, provides guidance and amends the accounting and reporting for noncontrolling interests in a consolidated subsidiary and the deconsolidation of a subsidiary. Under ASC Topic 810, the Company now reports noncontrolling interests in subsidiaries as a separate component of equity in the consolidated balance sheet and reflects both net income attributable to the noncontrolling interests and net income attributable to Common Shareholders on the face of the consolidated income statement.

The Company adopted ASC Topic 470-20 "Debt with Conversion and Other Options" (formerly FASB Staff Position No. 14-1, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement"), ("ASC Topic 470-20"). ASC Topic 470-20 requires the proceeds from the issuance of convertible debt be allocated between a debt component and an equity component. The debt component is measured based on the fair value of similar debt without an equity conversion feature, and the equity component is determined as the residual of the fair value of the debt deducted from the original proceeds received. The resulting discount on the debt component is amortized over the period the convertible debt is expected to be outstanding as additional non-cash interest expense. The equity component, recorded as additional paid-in capital, amounted to \$11.3 million, which represents the difference between the proceeds from the issuance of the convertible notes payable and the fair value of the liability at the time of issuance. The Company adopted ASC Topic 470-20 effective January 1, 2009 with a retrospective restatement to prior periods. The additional non cash interest expense recognized in the consolidated income statements was \$0.3 million and \$0.6 million for the quarters ended December 31, 2009 and 2008, respectively.

¹ Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's investments in consolidated and unconsolidated joint ventures are reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items. In total, net income agrees with net income as reported in the Company's Form 10Q's and 10K for the corresponding periods. The Company currently invests in Funds I. II & III and Mervyn's which are consolidated with the Company's financial statements. The Company also has a 22.2% interest in the Brandywine Portfolio and a 49% interest in the Crossroads Shopping Center which are accounted for as unconsolidated investments in the Company's financial statements.

2 The noncontrolling interest's share of NOI for 239 Greenwich Ave and Boonton Shopping Center aggregated \$1,187 for the year ended December 31, 2009.

3 Discontinued Operations reflects six Kroger locations which were sold in January 2009 and Blackman Plaza which was sold in November 2009.

¹ Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's investments in consolidated and unconsolidated joint ventures are reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items. In total, net income agrees with net income as reported in the Company's Form 10Q's and 10K for the corresponding periods. The Company currently invests in Funds I. II & III and Mervyn's which are consolidated with the Company's financial statements.

² Funds I, II & III and the Mervyn's investments pay various fees to the Company. As it is the recipient of such fees, the Company does not recognize its pro-rata share of these expenses.

³ Includes majority-owned affiliates of which the noncontrolling share of NOI for the Kroger/Safeway Portfolio amounts to \$1,765 for the year ended December 31, 2009.

¹ Quarterly results are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The Company's investments in consolidated and unconsolidated joint ventures are reflected separately for revenues and expenses by calculating it's pro-rata share for each of the above line items.

In total, net income agrees with net income as reported in the Company's Form 10Q's and 10K for the corresponding periods. The Company currently invests in Funds I. II & III and Mervyn's which are consolidated with the Company's financial statements.

² Funds I, II & III and the Mervyn's investments pay various fees to the Company. As it is the recipient of such fees, the Company does not recognize its pro-rata share of these expenses.

³ Includes majority-owned affiliates of which the noncontrolling share of NOI for the Kroger/Safeway Portfolio amounts to \$403 for the three months ended December 31, 2009.

¹ The above amounts includes the pro-rata activity related to the Company's consolidated and unconsolidated joint ventures.

² As a result of the recapitalization of the Brandywine Portfolio which enabled the Fund I investors to receive all of their invested capital and preferred return, the Company is entitled to receive a 20% promote interest. Accordingly, Acadia's effective ownership interest is now 38% [20% + (80% x 22%)]. The Company was entitled to \$7.2 million Promote on future Fund I earnings and received 100% of Fund I income until it was repaid. The balance was repaid in the second quarter of 2008 and the Company's share returned to 38%. 2008 NOI from Fund I have been adjusted from 100% down to 38% for comparability.

It is not recommended to apply a capitalization rate to current Fund I NOI as this NOI declines in future years due primarily to the structure of the Kroger/Safeway Portfolio leases

Fund II NOI includes \$212 (AKR share \$41) from other operating investments Fund III NOI includes \$25 (AKR share \$50) from redevelopment projects

Based on property appraisals adjusted for 2009 Kroger/Safeway dispositions plus Fund I working capital. Pro-rata share is 20% (AKR promote) + 22% x 80% (AKR remaining share after promote) = 37.78%

Includes costs reflected under Real estate, Real estate under development, Investments in and advances to unconsolidated affiliates and Deferred charges in the Consolidated Balance Sheet. Fund II includes \$6,900 (AKR share \$1,380) for other operating investments

Home Depot termination income of \$24,500 at Canarsie Plaza was recognized as income for financial reporting purposes. Reflected as a reduction of costs for purposes of presenting net project

1 Quarterly results for 2009 and 2008 are unaudited, although they reflect all adjustments, which in the opinion of management, are necessary for a fair presentation of operating results for the interim periods. The coverage ratios include the Company's pro-rata share of EBIDTA, interest expense and principal amortization related to both the Company's consolidated and unconsolidated investments in joint ventures.
2 Represents preferred distributions on Preferred Operating partnership Units.
3 Includes the Company's pro-rata share of consolidated and unconsolidated joint venture debt and principal amortization.
4 Reflects debt net of the current Core Portfolio cash balance as of 12/31/09.
5 Reflects debt net of the current Core Portfolio and pro-rata share of the Opportunity Funds cash balance as of 12/31/09.

¹ Fund II acquired a ground lease interest at this property.

² Percentage leased excludes self storage at Pelham Manor, Liberty Avenue and Atlantic Avenue.

³ 161st Street is currently cash flowing at 84% occupancy. The redevelopment plan includes the recapture and conversion of street level office space to retail. Tenant consolidations necessary to accomplish this plan have already begun. While the tenant consolidations have caused a temporary decline in occupancy, three leases have been signed which will bring occupancy up to 99%.

¹ Does not include leased square footage and costs related to first generation space and the Company's major redevelopment projects.

² Rents have not been calculated on a straight line basis. Previous/expiring rent is that as of time of expiration and includes any percentage rent paid as well. New rent is that which is paid at commencement.

³ Rents are calculated on a straight-line basis.

⁴ Excluding the replacement leases for Acme at Marketplace at Absecon, portfolio leasing spreads for new leases on a cash basis were +18.9% for the quarter and -18.8% for the year, and on a GAAP basis, +33.5% for the quarter and -9.9% for the year.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this supplemental disclosure may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 and as such may involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "believe," "intend" or "project" or the negative thereof or other variationsthereon or comparable terminology. Factors which could have a material adverse effect on the operations and future prospects of the Company include, but are not limited to those set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K. These risks and uncertainties should be considered in evaluating any forward-looking statements contained or incorporated by reference herein.

USE OF FUNDS FROM OPERATIONS AS NON-GAAP FINANCIAL MEASURE

The Company considers funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of property and depreciation and amortization. However, the Company's method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, the Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. In addition, the Company also discloses FFO as adjusted to include the extraordinary gain from its RCP investment in Albertson's. The Company believes that income or gains derived from its RCP investments, including its investment in Albertson's, are private-equity investments and, as such, should be treated as operating income and therefore FFO. The Company believes that this supplement adjustment more appropriately reflects the results of its operations. The Company defines AFFO as FFO adjusted for straight line rent, non-real estate depreciation, amortization of finance costs and costs of management contracts, tenant improvements

USE OF EBITDA AND NOI AS NON-GAAP FINANCIAL MEASURES

EBITDA and NOI are widely used financial measures in many industries, including the REIT industry, and are presented to assist investors and analysts in analyzing the performance of the Company. They are helpful as they exclude various items included in net income that are not indicative of operating performance, such as gains (or losses) from sales of property and depreciation and amortization and is used in computing various financial ratios as a measure of operational performance. The Company computes EBITDA as the sum of net income before extraordinary items plus interest expense, depreciation, income taxes and amortization, less any gains (losses including impairment charges) on the sale of income producing properties. The Company computes NOI by taking the difference between Property Revenues and Property Expenses as detailed in this reporting supplement. The Company's method of calculating EBITDA and NOI may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDA and NOI do not represent cash generated from operations as defined by GAAP and are not indicative of cash available to fund all cash needs, including distributions. They should not be considered as an alternative to net income for the purpose of evaluating the Company's performance or to cash flows as a measure of liquidity.
